Re.: Contract violations

Enschede, September 14, 2009.

Dear Mr. Hsieh,

You have ended our cooperation on July 21, 2009.

We would like to notify you that you are held to follow the agreement made on April 6, 2006, see also quote underneath from this agreement:

- *This agreement will remain in effect as long as it is mutually beneficial. If this agreement is terminated by written notice from one party to the other, E. Vos will be paid for any orders in effect at the time of termination. After termination E. Vos will be paid 3% on sales for the customers on his customer list for a period of 5 years. ;*

We would like to notify you that this is the only statement/rule that is valid after termination of the agreement.

Since termination of the agreement following violations have been observed:

1. On July 27 you have received a PO from ITB at the value of € 36.550,=
You have not declared this PO in the submitted overview of July.
2. We have agreed that you will submit the oredroverview of each month within 1 week after the end of the month, see also quote from your mail of August 27, 2009:
 - *Reply 4. We agree with sales data submit within 1 week after the ending of the month but only with the sales which you're going to get 3% commission.*On September 13 we have requested to receive the data on August, but instead we received your mail accusing me from greed. However in the agreement of April 2006 no restrictions have been set to my activities after termination and I have made several offers to coexist in Europe, without interfere too much in each others activities. Legally I am not held to do so and it is a (temporary) gesture from my side to stay out of stamping business were you are making most turnover. For clients were I have invested time and money I do deserve to gain some profit from, especially if your business with these clients is nothing or almost nothing.

We urge you to submit the correct data on July and the data on August immediately.

Yours sincerely,

E. Vos
